A Volunteering Community—Thank you

This last month, over 800 incredible volunteers took time from their Saturday to help plant flowers in town. This army of volunteers planted over 120,000 flowers in 140 planters, amounting to over 2 acres of ground!

You may have seen this happening on Main Street, or you may have been a part of it. This program was started over 15 years ago to help beautify the downtown area. Since that time, it has grown to cover so many other areas of town, including the Sports Park, Senior Center, Fairgrounds and Cemetery.

The only reason this project is feasible is because of the many

volunteers that come, year after year. Of this group of people, Bill Bushman, Buildings and Grounds Manager for Spanish Fork City said, "We do not have the manpower to do this project, we rely completely on our volunteers, and they answer the call every year.

We could not do this without them and we are so appreciative of the time they give."

As City leaders contemplated this program many years ago, they believed that community involvement would, among other things, create commu-

nity pride and decrease vandalism in the planters. That has happened, and as you drive down Main Street, you may see the flowers you planted or simply notice that this town looks like no other in the Summer. That is because of so many great volunteers!

Memorial Day Flowers at Spanish Fork Cemetery

Spanish Fork City Parks Department would like to thank all those who decorate the Cemetery with flowers for Memorial Day. It is always a beautiful sight. Because it is impossible to cut the grass with all the flowers in place, the flowers that are placed in the Cemetery to commemorate Memorial Day will be removed by the Spanish Fork City Cemetery Staff on Monday, **June 11, 2007**.

Those individuals wishing to remove the

flowers they placed must do so on or before Sunday, **June 10, 2007**. This would include all plants, cut flowers, potted flowers, artificial flowers and plants, baskets, containers, stands, and other memorabilia that were placed for Memorial Day that would obstruct the trimming and cutting of the grass. Artificial flowers in monument vases are NOT removed by the city crews because they do not obstruct grass cutting. Thank you.

REMINDER: Parks & Recreation Master Plan Survey

The Parks and Recreation master plan surveys are out now and we hope to hear from you soon. Take a few moments and fill out the survey and send it in. We'd love to hear from you!

There will also be public meeting on **Monday, June 4**, at 6:00 pm at the High Chaparral building, located at the Fairgrounds, 475 S. Main. You will be divided into groups to discuss parks and recreation services. Your comments, suggestions and opinions will help flavor the overall plan.

Job Opportunities at Spanish Fork City

Part-time and Seasonal Positions

As high school kids are leaving school, have them look at Spanish Fork City for summer employment. We have a few positions still available in our Parks and Recreation Department, as well as in our Public Works department.

Check our website today for current job postings and check back often to find other job opportunities with the City.

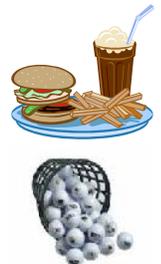

Pressurized Irrigation Reminders

Please check your PI filters and make sure they are clean. A plugged or partially plugged filter will cause a reduced flow (pressure) and reduced sprinkler performance.

If you have a leak at your PI meter, (water running out of the meter box) take the lid off and reach in and turn the valve OFF (1/4 turn to the right). If the leak stops, then the leak is somewhere on your line and you are responsible to fix it. If the leak is coming out of the Meter itself, do not attempt to fix it, call the City.
