For the first time, you will be able to respond to the census online, by mail, or by phone. Households will receive a postcard in the mail in mid-March with instructions on how to complete the census. Online responses to the census will open on March 23.

Any personal information collected through the census is confidential and cannot be used against you. Learn more at utah.census.gov.

UTAH VALLEY VISION SURVEY
Utah County is projected to add another 1 million residents to its population over the coming decades, primarily through internal growth (our own kids and grandkids). Take the survey at valleyvisioningsurvey.org to weigh in on important growth-related issues that will shape the future of our community, including air quality, housing, and transportation.

SNOWSTORM PARKING FINES
City snowplows are unable to safely plow streets when vehicles or trailers are parked on the road. Roads that cannot be safely plowed due to vehicles parked on the road will not be plowed, and offending owners will be subject to fines. Please help us more quickly and efficiently plow your road by not parking on the road when it snows.

NEW LIBRARY PUBLIC INPUT SUMMARY
Thank you to everyone who participated in the library design workshop or completed the survey. A summary of the survey results is now available on the library’s website (spanishfork.org/library). Much of your feedback, including the need for additional parking, a drive-up book drop, a larger collection, and interactive spaces, has directed a lot of the work done in this initial study, and we are confident that it will be insightful as we move forward in the design process.
If you would like to receive updates on the new library, including future opportunities for public input, please sign up for email alerts at spanishfork.org/library.
